UTILITIES

Public Water System:

There is an existing six (6) inch water line extending along the west side of Metro Court, adjacent to this site. The existing structure is connected to the public water system. Use of public water is required by County Code. Due to the proposed change in use, the existing water meter may need to be resized

Public Wastewater System:

There is an existing eight (8) inch wastewater collector line extending along Metro Court, adjacent to this site. The existing structure is connected to the public wastewater system. Use public sewer is required by County Code.

ENVIRONMENTAL

Since this site is developed, this request will have no impact on environmental facilities. Any new or redevelopment must comply with drainage/erosion and water quality requirements.

PUBLIC FACILITIES

Fire Service:

The Bensley Fire Station currently provides fire protection and emergency medical service. This request will have a minimal impact on Fire and EMS.

Transportation:

This request will have minimal impact on Transportation facilities.

LAND USE

Comprehensive Plan:

Lies within the boundaries of the Jefferson Davis Highway Corridor Plan which suggests the property is appropriate for general commercial uses.

Area Development Trends:

The area is characterized by commercial and office/warehouse developments. It is anticipated that areas surrounding the Willis Road/Interstate 95 interchange, west to Jefferson Davis Highway, will continue to develop for general business and light industrial uses, as suggested by the Plan.

Site Design:

The request property lies within the Jefferson Davis Highway Corridor District. The purpose of this district's standards is to recognize specified areas of the County as unique and to enhance patterns of development and encourage redevelopment. Development of the site must conform to the Highway Corridor District standards and the Post Development Area District requirements of the Zoning Ordinance. Together, these standards address access, parking, landscaping, architectural treatment, setbacks, signs, buffers, pedestrian access, utilities and screening of dumpsters and loading areas.

CONCLUSION

The proposed zoning and land uses conform to the Jefferson Davis Highway Corridor Plan which suggests the property is appropriate for general commercial use. In addition, the proposed zoning and land uses are representative of, and compatible with, existing and anticipated area development.

Given these considerations, approval of this request is recommended.
